INTERIOR DOOR AND HANDLE STORE

For more than 27 years, our company group has been dealing with the production, trade and installation of medium and premium category Hungarian and imported sliding and opening doors, door systems and project doors.

Over the years, we have broadened and shaped our product range and by today we have managed to create an assortment where everyone can find interior door models or door handles that suit their taste and budget.

In our huge selection, you can find our own brands; Pascal and JAN premium interior doors, wide selection of Pol-Skone interior doors, innovative sliding and opening doors of Ermetika, as well as Full Doors design doors that are produced in Hungary. Our project door range is completed by Domoferm products.

We believe that the door will be complete with the accessories!

In order to pass on this creed, we also have the market's largest range of door handles and accessories. Nearly 80 brands are available to our customers and partners in-store, online and for home delivery.

INTERIOR DOOR AND HANDLE STORE

Visit our stores and discover your style!

Our unique 1,000 m² store in Óbuda is perfectly suitable for making selecting doors a pleasant pastime, and our warehouse in Pomáz is available to our customers with products that can be collected immediately. A fundamental aspect in the design of our stores was to present the products with testable, full-fledged doors, not only with surface samples and demo models.

Most of the door handles that we sell online are on display in our store in Óbuda, where you can choose from more than 2,000 door handles and accessories. Anyone who sees this amazing range of products can usually only say: WOW!

Open to your style!

ÓBUDA

1038 Budapest, Fürdő utca 2.

The first impression in our store in Óbuda is the clearly perceptible concept of showing as many products as possible and making them tangible for those interested.

You can choose from high-quality Hungarian and imported products of simpler solutions as well as premium design doors and door handles.

On the lower level you can try some of the premium products while on the ground floor an impressively wide selection of more traditional doors and door handles are presented to you.

The store also has several sections designed for consultations, giving you the opportunity to make a thoughtful choice.

Who can we help?

Decorators, Interior Designers, Designers:

They can receive their clients in our well-equipped stores and have the technical assistance of our colleagues. Our commission system has ensured the satisfaction of our partners for years.

Projects:

Small, medium and large volume constructions with adequate capacity and experienced professionals. With quality, cost-effective and short-delivery project products.

Construction companies:

Complete execution of interior doors from survey to installation. With normal interior doors for family houses, or technical doors for more special needs: fire prevention, smoke prevention, etc., anything that are required by the local conditions.

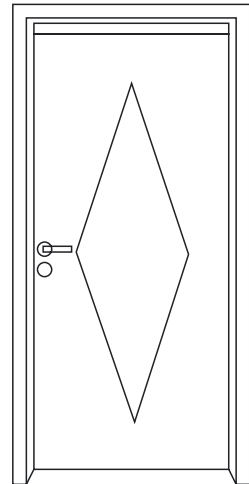

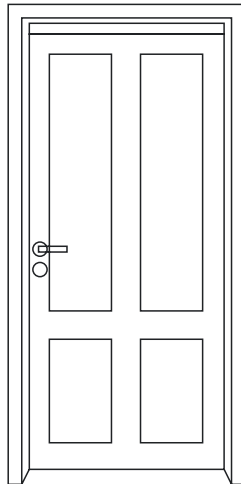

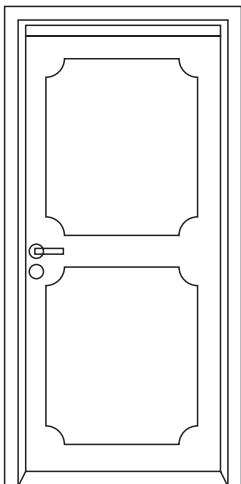

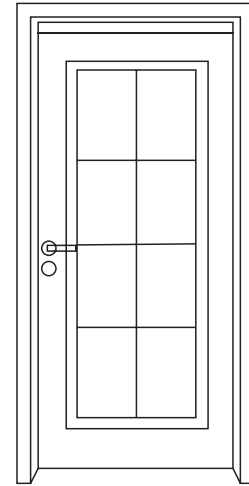

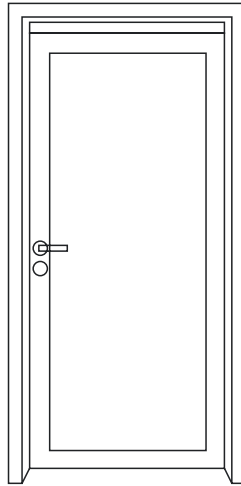

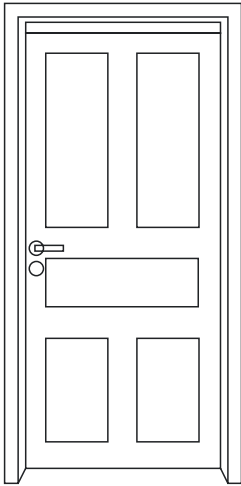

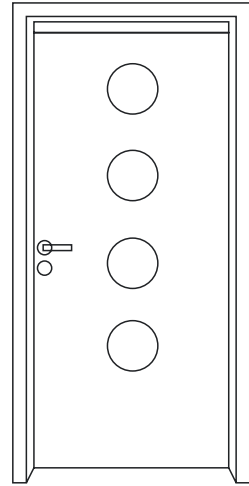

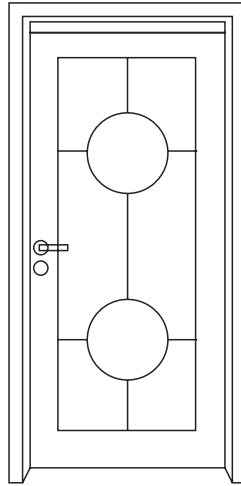

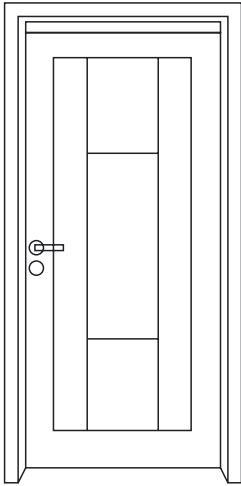

Resale:

We support sales with a well-functioning logistics system, with products on display, and catalogs. Our colleagues work with a short deadline: they respond to queries and orders within 1-3 working days.

Private customers:

A large selection of products, plenty of doors and door handles on display to make the choice be simpler. Competent and helpful colleagues guide you through the process so that you can find the best product to suit your needs, considering the use.
